

PRESS RELEASE

In memoriam

It is with shock and great sadness that we have learned that Mr. Hans-Peter Riester, Business Unit Manager STA of Kao Chemicals Europe and EFCC Board member, passed away on 24 March 2015 in a dramatic accident.

Deeply involved for many years in the business of superplasticizers and other chemical admixtures in concrete, it was usual to find him in international technical conferences and events, sometimes even as member of the organizing committee.

A highly valuable and respected member of the Board of EFCC since 2009, Mr. Riester, remained true to his commitment to build up a stronger EFCC and actively helped to move it forward.

Always friendly and courteous, it was a great privilege for us to work closely during these years with Mr. Riester with whom we shared values and convictions, as well the ambition to build up a stronger European construction chemical sector.

At this difficult time, our thoughts and prayers are with his family, friends and colleagues.
